- **Length of Service:** between 45 and 50 hours; 15 to 16 weeks; 1 to 1.5 hour sessions 2 to 3 days per week
- **Student/Instructor Ratio:** 6 students (or less) to 1 teacher
- **Able to provide services to ELL and Special Education students.**

ESU 6 tutoring program is designed to identify a student's learning strengths and weaknesses and to help the student master important reading, language arts, and math skills. The program uses a combination of effective tutoring practices and the best of computer assisted learning tools. ESU 6 students start with an assessment, followed by development of a learning plan targeting student weaknesses. Students are encouraged to attend regularly and tutors use incentives to motivate students to work hard and accomplish the goals of their learning plans. Tutoring time is split between homework help, targeted reading intervention, and math skills. Tutors maintain biweekly contact with the student's parents and teachers.

- **Able to provide services to ELL and Special Education students.**

ESU 19 Strategic Tutoring Program will provide small-group tutoring sessions focused on essential skills in reading, writing, and mathematics before school, after school, and during the summer. Certified teachers will develop individualized success plans for each student and design specific learning goals based on diagnostic assessments. The Strategic Tutoring sessions are designed to include direct strategy instruction to students with opportunities for students to practice and apply the skills and strategies within a supportive learning environment. Students will be taught strategies they can use and apply in everyday learning situations. Formative assessment will be used throughout the tutoring sessions in order to continually diagnose student needs, adapt instruction, and provide feedback to students.

- **Able to provide services to ELL and Special Education students.**

EDUSS Learning provides software incorporating mathematics, English/language arts and phonics-to-reading programs on a free laptop that the students are allowed to keep once they have completed all required hours of tutoring. Students' weaknesses and skill gaps are individually pinpointed with our 3 dimensional Evaluation Engine. Our software provides each student with a customized learning plan, so within our groups, students are able to effectively work on the areas in which they were not able to demonstrate proficiency on the assessment. With our research-based system, students can be challenged in an exciting way that results in improved performance.

Sylvan In-center programs ensure every student develops the skills, habits and attitudes for lifelong success. The first step is to conduct the Sylvan Skills Assessment to identify each child's learning style and pinpoint "skill gaps" or areas of academic struggles. Our highly trained, caring and expert instructors teach each lesson in a way that makes it easier for students to master the material. Monthly conferences keep parents and school personnel informed of student progress. Flexible business hours after school and Saturday mornings serve families and students. Sylvan Online has taken the proven learning approach delivered in-center and adapted it for online delivery.
