##### V.A. Facility Update

John Linder provided the school board with a written report over proposed summer maintenance projects, preparing for graduation, summer mowing, meeting with the architect and Dr. Prososki to work on the new concession stands, the new bathrooms, and the new press box plans for the football field, replacing carpet, and contracting out the following projects over the summer months: roof project at both the Elementary School and the Jr./Sr. High School, new windows at the Jr./Sr. High School, new inside doors at the Jr./Sr. High School, and updating the gym floor at the Jr./Sr. High School.

Dr. Prososki presented the school board with a long-range bus and vehicle acquisition plan for the next seven years. This long-range plan will allow Dr. Prososki an ample amount of time to explore possible grant funding in the area. He noted that he is currently writing a \$42,000 grant through the Volkswagen Environmental Mitigation Trust Fund. Dr. Prososki noted that one of his main reasons for creating a long-range bus and vehicle acquisition plan is to not put future boards and future superintendents in a tough financial spot. When Dr. Prososki first started, he was in a \$500,000 hole because of the loss of state aid, the loss in property tax revenue, the increases to salaries, and having to pay off \$200,000 worth of bus leases. Next year the district will look at trading in a bus and selling an old work truck. The district will look at purchasing a new activity bus with the grant money proceeds and moving the current activity bus to a daily route bus. The district will use the hail storm proceeds to purchase a new work truck next year as well.

##### V.B. Personnel Items

The following paraprofessionals were just hired for the 2019-2020 school year: Angela Spencer (4-Year-Old Preschool Para), Lavone Rabstějnek (K-6 Para), and Lori Moniz-Trisler (K-6 Para). Dr. Prososki noted that he was waiting on one background check to be completed for another K-6 para for next school year. Next school year, the district will have 12 paraprofessionals. A full-time maintenance staff member recently retired and the district is looking at moving from 5.68 FTE maintenance staff members to 5.00 FTE maintenance staff members next school year. This is also the same amount of maintenance staff that Tri County Public Schools has and Southern will have more maintenance staff than both Diller-Odell and Freeman.

##### V.B.1. Hiring Recommendation

V.B.1.1. Chaysen Bednar - 1.0 FTE - Sixth Grade Teacher for the 2019-2020 School Year  
Motion to approve Chaysen Bednar as the 1.0 FTE sixth grade teacher for the 2019-2020 school year. This motion, made by Harlan Rickers and seconded by Carol Pralle, passed.

In addition to his teaching duties, he will also serve as the assistant high school girls basketball coach in the fall.

#### V.C. Technology Update

Dr. Prosocki went over a recent objective printer walkthrough that was completed by Capital Business Systems regarding the needed printers in our district. Capital Business Systems also gave Southern a quote for when the district lease is up with Eakes Office Solutions next summer. Dr. Prosocki noted he will look at getting quotes from both companies next spring. Dr. Prosocki recently completed E-Rate funding for next school year with ESU 5 and Southern will receive around \$21,000 in E- Rate funding.

#### VI. Administrative and Committee Reports

##### VI.A. Student Board Member Report

There was not student board member report.

##### VI.B. Elementary Principal's Report

The elementary principal reported on the following items: current enrollment figures (K - 26, 1st - 23, 2nd - 23, 3rd - 21, 4th - 34, 5th - 29, & 6th - 27), the completion of required state and federal assessments, fun and field day, Kindergarten Roundup, and summer school for all students going into grades 1st through 6th. He also talked about the Diller-Odell co-op and new requirements for activity sponsors next school year.

##### VI.C. Secondary Principal's Report

The secondary principal reported on the following items: the last day of school for Jr./Sr. High School students, having two students graduate from the alternative school, the upcoming Jr./Sr. High School elections, the seniors receiving over \$300,000 in scholarships, current enrollment figures (7th - 27, 8th - 33, 9th - 25, 10th - 27, 11th - 37, 12th - 27).

##### VI.D. Superintendent's Report

Dr. Prosocki went over his plan to have an active shooter training with just staff members next school year, he went over the minutes from the annual preschool advisory meeting, and he went over how he is going to require background checks for all new employees, coaches, and volunteers through One Source. Next, Dr. Prosocki went over the official cost of the new Employee Assistance Program for next school year (\$1,880), he went over the DIBELS data (The Elementary School had 59% of K-6 students at grade level in reading in the fall and had 70% of K-6 students at grade level in reading in the spring), and having the drug dog out to conduct a sniff on both the student lockers and the student vehicles at the Jr./Sr. High School. Dr. Prosocki went over the plan to have the ESU 5 mental health counselor at not just the Jr./Sr. High School next year, but also at the Elementary School as well. Dr. Prosocki thanked everyone on the school improvement team for making the recent external accreditation visit a success, and he went over his plan to align the kindergarten schedule with the rest of the district calendar (Kindergarten students will not get out a week early next year). Next, he gave the school board an update of LB 289 and how he talked to State Senator Myron Dorn over the phone on April 13

regarding the shortfall of this bill when it came to school funding. Dr. Prosocki suggested the new revenue sources should go directly into the Property Tax Credit Fund and the state legislature should have the experts in the field provide feedback about how to make changes to school funding in Nebraska. Dr. Prosocki then went over the 2-10 grade MAP results (The administration of a norm-referenced assessment is required by the federal government), and he talked about the tremendous amount of growth that occurred this spring on the math MAP assessments because of the implementation of a new K-8 math program this year and the staffs hard work in implementing the program with fidelity. Dr. Prosocki went over the presentations for next year: Bobby Truhe of KSB School Law (Grades 3-12), Jeff Quinn a magician (Grades PK-6), and BMX presentation at Beatrice High School (Grades 9-12). Dr. Prosocki gave the school board an update on the reVISION grant and how he is working with area manufacturing businesses about the possibility of them sending a certified welder to Southern to teach welding on site. Dr. Prosocki has also been talking to manufacturing businesses about the possibility of them donating scrap metal for the students to use to make a new welding program fiscally possible and sustainable in the years ahead. Lastly, Dr. Prosocki went over preliminary budget figures for next year, he went over how the new K-6 standards-based report cards will now allow teachers to use data to inform instruction in a very simplistic manner, and he went over a draft of the state's biennial budget.
