

Special Bond Election – September 14, 2021

Vision for the Future:

The board of education has engaged in master planning over the years in an effort to create a vision for learning and to engage in facility projects involving both short-term and long-term planning. With the interest rates at an all-time low and the need for some additions at the Elementary School, the board of education has decided to move forward with a \$2.89 million dollar special bond election in the fall. A successful bond election would create an annual bond levy of 4.5 cents, for 20 years, based on the district's current valuation. A successful bond election would provide the district with \$2.89 million dollars for a new gym at the Elementary School, a new playground area at the Elementary School, provide the district with the ability to fix drained issues around the Elementary School building, and two new classroom additions at the Elementary School that would be used as preschool classrooms. I have included 2 information brochures about the proposed project and provided the Bond Election Timeline below.

Informational Brochures/Bond Election Presentation:
